# Models: 8RESV

# KOHLER. Power Systems

Multi-Fuel LPG/Natural Gas

# The Kohler® Advantage

High Quality Power

Kohler home generators provide advanced voltage and frequency regulation along with ultra-low levels of harmonic distortion for excellent generator power quality to protect your valuable electronics.

• Extraordinary Reliability

Kohler is known for extraordinary reliability and performance and backs that up with a 5-year or 2000 hour limited warranty.

Powerful Performance

Exclusive Powerboost <sup>™</sup> technology provides excellent starting power. The Kohler 8 kW generator can easily start and run a 4 ton air conditioner with up to 5 kW preload.\*

Enclosure

Bold new Kohler design in steel, dipped in e-coat for extra corrosion protection and painted with a durable powder coat finish.

• Quiet Operation

Kohler home generators provide quiet, neighborhoodfriendly performance.

# **Standard Features**

#### RDC2 Controller

- One digital controller manages both the generator set and transfer switch functions (with optional Model RXT transfer switch).
- Designed for today's most sophisticated electronics.
- Electronic speed control responds quickly to varying household demand.
- Digital voltage regulation protects your sensitive electronics from harmonic distortion and unstable power quality.
- Two-line, backlit LCD display with adjustable contrast is easy to read, even in direct sunlight or low light.
- OnCue<sup>®</sup> Plus Generator Management System for remote monitoring is included with every generator.

#### • Kohler Engine Features

- Kohler engine with efficient OHV design
- Powerful, reliable air-cooled performance
- Simple field conversion between natural gas and LPG fuels while maintaining emission certification

## • Designed for Easy Installation

- Steel base
- Hinged, locking roof
- Fuel and electrical connections through the enclosure wall eliminate the need for stub-ups through the bottom
- Accepts natural gas fuel pressure as low as 3.5 inches
- · Load connection terminal block allows easy field wiring
- Designed for outdoor installation only
- Approved for stationary standby applications in locations served by a reliable utility source
- Meets 181 mph wind rating

#### • Certifications

- Meets emission regulations for U.S. Environmental Protection Agency (EPA) 40 CFR 60 stationary source standards with both LPG and natural gas.
  Note: CARB does not regulate emergency standby generators outputting less than 50 HP. Only the EPA standards apply.
- UL 2200 listed (60 Hz model)
- CSA certification available (60 Hz model)
- Accepted by the Massachusetts Board of Registration of Plumbers and Gas Fitters.

# **Generator Ratings**

|       |         |       |    |            | Standby Ratings |      |        |      |
|-------|---------|-------|----|------------|-----------------|------|--------|------|
|       |         |       |    |            | Natural         | Gas  | LPG    | à    |
| Model | Voltage | Phase | Hz | Alternator | kW/kVA          | Amps | kW/kVA | Amps |
| 8RESV | 120/240 | 1     | 60 | 2F3        | 7/7             | 29.2 | 8/8    | 33.3 |
| ONESV | 115/230 | 1     | 50 | 2F3        | 7/7             | 30.4 | 8/8    | 34.8 |

RATINGS: Standby ratings apply to installations served by a reliable utility source. All single-phase units are rated at 1.0 power factor. The standby rating is applicable to variable loads with an average load factor of 80% for the duration of the power outage. No overload capacity is specified at this rating. Ratings are in accordance with ISO-3046/1, BS5514, AS2789, and DIN 6271. GENERAL GUIDELINES FOR DERATING: *ALTITUDE*: Derate 4% per 305 m (1000 ft.) elevation above 153 m (500 ft.). *TEMPERATURE*: Derate 2% per 5.5°C (10°F) temperature increase above 16°C (60°F). Availability is subject to change without notice. The generator set manufacture reserves the right to change the design or specifications without notice and without any obligation or liability whatsoever. Contact your local Kohler Co. generator distributor for availability.

\* Check the appliance manufacturer's specifications for actual power requirements. Consult a Kohler® Power Systems professional to calculate your exact residential power system requirements.

## **Alternator Features**

- Compliance with NEMA, IEEE, and ANSI standards for temperature rise
- Self-ventilated and drip-proof construction
- Windings are vacuum-impregnated with epoxy varnish for dependability and long life.
- Superior voltage waveform and minimum harmonic distortion from skewed alternator construction
- Digital voltage regulator with ±1.0% no-load to full-load RMS regulation
- Rotating-field alternator with static exciter for excellent load response
- Total harmonic distortion (THD) from no load to full load with a linear load is less than 5%

 $36.39 \text{ ft.}^3 = 1 \text{ gal.}$ 

## Sound Data

Model 8RESV 8 point logarithmic average sound levels are 66 dB(A) during weekly engine exercise and 72 dB(A) during full-speed generator diagnostics and normal operation. The lowest point sound levels are 63 dB(A) and 68 dB(A) respectively as compared to competitor ratings.\* All sound levels are measured at 7 meters with no load.

\* Lowest of 8 points measured around the generator. Sound levels at other points around generator may vary depending on installation parameters.

# **RDC2 Controller**

The RDC2 controller provides integrated control for the generator set, Kohler<sup>®</sup> Model RXT transfer switch, programmable interface module (PIM), and load control module (LCM).

The RDC2 controller's 2-line LCD screen displays status messages and system settings that are clear and easy to read, even in direct sunlight or low light.

## **RDC2 Controller Features**

- Membrane keypad
  - OFF, AUTO, and RUN pushbuttons
  - Select and arrow buttons for access to system configuration and adjustment menus
- LED indicators for OFF, AUTO, and RUN modes
- LED indicators for utility power and generator set source availability and ATS position (Model RXT transfer switch required)
- LCD screen
  - Two lines x 16 characters per line
  - Backlit display with adjustable contrast for excellent visibility in all lighting conditions
- Scrolling system status display
  - Generator set status
  - Voltage and frequency
  - Engine temperature
  - Oil pressure
  - o Battery voltage
  - Engine runtime hours
  - Date and time displays
- Smart engine cooldown senses engine temperature
- Digital isochronous governor to maintain steady-state speed at all loads
- Digital voltage regulation: ±1.0% RMS no-load to full-load
- Automatic start with programmed cranking cycle
- Programmable exerciser can be set to start automatically on any future day and time, and run every week or every two weeks
- Exercise modes
  - Unloaded weekly exercise with complete system diagnostics
  - Unloaded full-speed exercise
  - Loaded full-speed exercise (Model RXT ATS required)
- Front-access mini USB connector for SiteTech<sup>™</sup> or USB Utility connection
- Integral Ethernet connector for Kohler® OnCue® Plus
- Built-in 2.5 amp battery charger
- Remote two-wire start/stop capability for optional connection of Model RDT or RSB transfer switches

See additional controller features on the next page.

## Additional RDC2 Controller Features

- Diagnostic messages
  - Displays diagnostic messages for the engine, generator, Model RXT transfer switch, programmable interface module (PIM), and load control module (LCM)
  - Over 70 diagnostic messages can be displayed
- Maintenance reminders
- System settings
  - System voltage, frequency, and phase
  - Voltage adjustment
  - Measurement system, English or metric
- ATS status (Model RXT ATS required)
  - Source availability
  - ATS position (normal/utility or emergency/generator) Source voltage and frequency
- ATS control (Model RXT ATS required)
- Source voltage and frequency settings
- Engine start time delay
- Transfer time delays
- Voltage calibration
- Fixed pickup and dropout settings
- Programmable Interface Module (PIM) status displays
  - Input status (active/inactive)
  - Output status (active/inactive)
- Load control module (LCM) menus
  - Load status
  - Test function

## **Generator Set Standard Features**

- Battery cables
- Critical silencer
- EPA certified fuel system
- Field-connection terminal block
- Fuel solenoid valve and secondary regulator
- Line circuit breaker: 40 Amps
- Multi-fuel system, LPG/natural gas, field-convertible
- Oil drain extension with shutoff valve
- OnCue<sup>®</sup> Plus Generator Management System
- RDC2 generator set/ATS controller
- Rodent-resistant construction
- Sound enclosure with sound-deadening, flame-retardant foam per UL 94, class HF-1
- 5-year limited warranty

## Available Accessories\*

## Approvals and Listings

CSA Approval (60 Hz only)

## **Concrete Mounting Pads**

- Concrete mounting pad, 3 in. thick
- Concrete mounting pad, 4 in. thick (recommended for

#### storm-prone areas)

## Available Accessories, Continued

#### Controller Accessories

- Programmable Interface Module (PIM) (provides 2 digital inputs and 6 relay outputs)
- Load Control Module (LCM) (provides 4 power relays and 2 HVAC relays)

#### **Electrical System**

- Battery
- **Fuel System**
- Braided stainless steel flexible fuel line

#### Maintenance

Maintenance kit

#### Literature

- General maintenance literature kit
- Overhaul literature kit
- Production literature kit

#### Starting Aids

Carburetor heater, 120 VAC (recommended for reliable starting at temperatures below 0°C [32°F])

#### Kohler® Automatic Transfer Switch

- Model RXT, see specification sheet G11-121
- Model RDT, see specification sheet G11-98
- Model RSB, see specification sheet G11-101
- Other Kohler<sup>®</sup> ATS

## Miscellaneous Accessories

- \* Accessories are available through Kohler authorized distributors and dealers.

## **Generator Set Dimensions and Weights**

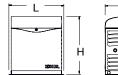

8RESV

Overall Generator Size, L x W x H:

712 x 777 x 824 mm (28 x 30 x 32.4 in.)

#### Shipping Weight:

170 kg (375 lb.)

NOTE: Dimensions are provided for reference only and should not be used for planning installation. Contact yourLennox professional Lennox professionallocal distributor for more detailed information.
